

## Ohio State Golf Club Cart Policy for OHSAA State Golf Tournament

The Ohio State Golf Club will not rent out riding carts for handicap spectators under any circumstances. The reason behind the decision is very simple. We do not have continuous cart paths around the course and there are two golf courses that come together at many points throughout. For this reason, it is dangerous to allow spectator carts for anyone. It can also become a disturbance for the golfers.

Weather permitting, the Ohio State Golf Club will provide a shuttle service to handicap spectators that have a placard. This service is designed to drop spectators off at various points around the course. Spectators are encouraged to bring some type of foldup seat.

Coaches that need the service of a handicap cart must get approval through the OHSAA. The OHSAA will then forward those names to the Ohio State Golf Club. These carts will be allowed and the cost per day is \$22. Coach's carts are weather permitting. In the case of inclement weather, the Ohio State Golf Club reserves the right to not permit the use of any carts.
