

## Bus Drop Off and Parking – Swim/Dive

The Ross Natatorium has three points of entry. The entrance along the west provides immediate access to the natatorium area. The other two points of entry require patrons to walk a short distance to point of entry along the schools north side. Patrons will be asked to park in one of the two designated parking places shown above.

To drop athletes/coaches off at the desired location buses will need to access the campus by using Fangboner Street. Using the access road directly north of the high school, buses will travel west till they reach the first stop sign. Buses will then take an immediate left (traveling south) until they reach the designated drop off point. Once athletes are dropped off, buses will then follow the route above - so that they may park on the western most side of the parking lot.
