

## Relay Alternates for the 2021 District Meets

Due to the COVID capacity restrictions at Miami University, we will be following these procedures for relays and relay alternates at the District meets:

Up to eight (8) swimmers may be listed on the relay card, provided these swimmers are on the school's district roster.

A school's district roster is comprised of individual and relay qualifiers from the sectional meet. Due to current Covid-19 restrictions, no additional swimmers may be added to the district roster, except for the following.

1. Should a swimmer become ill or injured prior to the meet, they may be replaced. Schools may replace swimmers on their district roster on a one-for-one basis, provided that
  - a. the current district roster number is not exceeded
  - b. the replacement swimmer is not a replacement for an individual event.
2. Schools with seven (7) or fewer swimmers on their district roster and have qualifying relays may add one additional alternate.

All relay cards and changes to a school's district roster must be communicated to District Meet Management by noon the day before the meet.

- D2 Girls – By noon, Tuesday, February 16
- D2 Boys – By noon, Wednesday, February 17
- D1 Girls – By noon, Thursday, February 18
- D1 Boys – By noon, Friday, February 19

If a swimmer becomes ill or injured after the noon deadline, the coach will be permitted to replace the swimmer one for one upon arrival at check-in. The coach shall make every effort to contact District Meet Management (Claudia Multer or Ward Billhimer) as soon as possible.
