## Student Eligibility Guidance for 2021-2022 School Year for High School Principals and Athletic Administrators

### Bylaw 4-7-2, Transfer – Summary

This document will focus on the primary language within Bylaw 4-7-2, Transfer. The bylaw reads as follows:

**4-7-2** A student is considered to have transferred whenever a.) enrollment is changed from one school to another school and the student attends a new school, or b.) enrollment is changed from one school to become home schooled, or c.) the student participates in a practice, scrimmage or contest with a school-sponsored squad of a school in which the student has not been enrolled and attending, or d) the participation opportunities afforded a student pursuant to state law change. Notwithstanding (c) and (d) above, if a non-enrolled student's participation is pursuant to O.R.C. §§ 3313.5311 (Ohio non-public school students) or 3313.537 (Ohio community/STEM school students), the non-enrolled student's participation opportunity shall transfer back to the non-public school or Community/STEM school in which the student is enrolled without transfer consequences. If the non-public school or Community/STEM school ever sponsors the sport/sports in which the non-enrolled student wishes to participate, the student's participation opportunity shall also be transferred back to the school of attendance without consequence. Furthermore, any in-season changes in the participation opportunities that may be afforded by state law shall be subject to Bylaw 4-7-3.

If a student transfers at any time after commencing the ninth-grade year, the student shall be ineligible for all OHSAA tournaments in those sports in which the student participated during the 12 months immediately preceding this transfer. In addition, the student shall be ineligible for all contests at all levels AFTER the first 50% of the maximum allowable varsity regular season contests have been competed in those sports in which the student participated during the 12 months immediately preceding this transfer. The transfer consequence shall remain in effect until the one-year anniversary of the date of enrollment in the school to which the student transferred, at which time the student is no longer considered a transfer student. For purposes of the transfer bylaws, a student will be considered as having commenced the ninth-grade year by either attending five or more days of school as a ninth grader or by establishing eligibility at a school by having participated in a contest. Furthermore, the term "participated in a contest" for purposes of the transfer bylaw means to have played at least one play in a scrimmage, preview/jamboree, Foundation game or regular season/ tournament game or contest.

A student who did not participate in an OHSAA recognized sport in the 12 months immediately preceding the transfer is not subject to the consequence of this transfer bylaw.

Notwithstanding the above, if a student transfers during the season of a sport in which he or she has participated in a regular season contest, and if Bylaw 4-7-3 requires that the student is ineligible for participation in the remainder of the contests in that sports season, the student shall remain ineligible for the remainder of all regular season contests, as well as the OHSAA tournament, in that sport at the school into which the student has transferred (or at the school where the student is now permitted a participation opportunity). Furthermore, the student shall finish fulfilling his/her transfer consequence, for ONLY that sport in which the mid-season transfer occurred, at the start of the sport season during the next school year, unless an exception can be met to restore eligibility for the next sport season. This consequence

requires that the student shall remain ineligible for all preseason contests (scrimmages, preview/jamboree, Foundation games) and all regular season contests until the total number of varsity regular season contests missed (including those missed during the previous season) equals 50 percent of the maximum allowable varsity regular season contests in that sport.

Note: ORC 3313.5312 (Ohio home educated students) has been intentionally left out of the exclusions of subpart (b) addressing students participating in programs where they are not enrolled. Once a home-educated student, in accordance with state law, participates with a school sponsored squad of a school in which the student is not enrolled, the student's eligibility is established at that school. Participating on any other schools' sponsored squad will be considered a transfer for which the balance of this bylaw and its exception would be applicable.

This bylaw requires the administrator to determine the following:

1. **Is the student a transfer student? In other words, did the student change schools/participation opportunity after establishing eligibility by attending five or more days of school as a 9<sup>th</sup> grader or by participating in a high school contest?**
  - a. If the answer is NO, then the transfer consequence is not applicable, and the student is fully eligible insofar as this bylaw is concerned. If the answer is YES, proceed to step #2.
  
2. **Did the student play an OHSAA sport at ANY high school in the 12 months immediately preceding the date of transfer into the new high school? Get this information in writing from an administrator at the previous school or schools.**
  - a. If the answer is NO, the student is fully eligible insofar as transfer is concerned for that respective sport at the new school and no paperwork or ruling is necessary. **(Please note that if a student transfers back to a school in which they were previously enrolled, then their "lookback" review could include participation that took place at the same high school where they are now desiring a participation opportunity).** If the answer is YES, then please proceed to step #3.
  
3. **If the answer to both #1 and #2 is YES, then does the student meet the requirements of one of the 12 enumerated exceptions to this bylaw? Please note: Not all students will meet the requirements to an exception. Please refer to letter 'b' below for more information.**
  - a. If the answer is YES, the student meets an exception, then paperwork will be required, and the school administrator must seek a formal ruling from the OHSAA. The student may commence participation and is eligible, insofar as transfer is concerned, for all contests until the second 50% of the maximum allowable regular season varsity contests begin. Once the student is ruled eligible in accordance with an exception, the transfer eligibility is restored for as long as the student maintains enrollment and attendance at that school.
  
  - b. If the answer is NO, the student does not meet the requirements of an exception, the student may commence participation and is eligible, insofar as transfer is concerned, for all contests until the second 50% of the maximum allowable varsity regular season contests begin. At that point, the student becomes ineligible for the second 50% of those contests AND the OHSAA tournament in that respective sport. In such a situation, no paperwork or ruling is required from the OHSAA. The student simply participates until the ineligibility commences as prescribed within the transfer bylaw.
  
  - c. **Please review the guidance documents regarding each exception for more information and instructions on how to submit a request.**
