Welcome to the 2021 Softball Season

As we enter a new year, where do we start? To me, it is as simple as “Let’s Have a Season” which has been the rallying cry for OHSAA student athletes over the past year. The same applies to all of our softball umpires as well. We must put behind us the lost season of 2020 and all work together to have a safe and healthy spring sports season this year. It will take a lot of extra effort from everyone involved – schools, their administrators and coaches, student athletes and our umpires. As I write this in early December the pandemic illnesses are growing but the hope is there for a vaccine and a much better health climate as we play softball this spring. The purpose of this WHITE BOOK SUPPLEMENT is to prepare us for the coming season.

I also want to thank you in advance for the additional efforts you will be making this spring – double checking every assignment, social distancing, wearing face coverings prior to and after each contest, when communicating closely with others, and when leaving the field (note that it is recommended that you wear these coverings at all times), and setting a good example for everyone as we fight the virus. Flexibility will be very important. I know our umpires will continue to serve Ohio’s schools and student athletes rising above the challenges during these most difficult times. The OHSAA truly appreciates all you do.

I encourage all of you to review the 2020 White Book and all the NFHS publications from last year. For 2021 there are no rules changes, no new rule books or other publications, and no postal mailing of materials from the OHSAA. As I’m sure you can imagine the association is doing everything possible to reduce its expenses as nearly all its revenue stream has been cut drastically without significant paid admissions to tournaments. If you have misplaced your printed 2020 White Book it can be accessed online at the link below – and a list of key review items is printed elsewhere in this supplement.

For obvious reasons, we are going to be changing some of our training programs for this year. Here are some key points to be aware of:

• The 2021 required state meeting will be online only. A notice will be sent but look for it to be available about February 10.
• Local associations will be permitted to offer meetings either online or in-person but many will be unable to do so. The OHSAA will offer six online local meeting opportunities between mid-February and early April. Umpires will have these chances to get their local meetings, now called educational credits.
• There will be no in person mechanics clinics held around the state this year. These will return in 2022. Local meeting topics will include both rules and mechanics.
• There will be a pre-season test available – a great rules refresher and an opportunity to pick up additional points on your 2022 tournament score. The timeline for this test will be communicated in late February.

• As a result of the health crisis there will be some rules and mechanics modifications for the 2021 season. These will be covered in the state and local meetings, elsewhere in this publication, and through additional communications during the spring. Please understand that our flexibility is the key here as these modifications may be adjusted at any time – both prior to and during the season.

• These additional communications will include our weekly bulletins – as in the past these may not be out every week but we will work to get all necessary information to you as quickly as possible.

For 2021 we must work harder than ever on both recruiting and retention efforts. We need more umpires and with the decrease in some employment levels we can provide a great opportunity to those in need. I especially encourage you to recruit females and minorities - we have not had much success in recruiting female and minority umpires and ask for your help with this. Our current umpires are the best recruiting source we have. If you know of anyone interested give them this address: http://www.ohsaa.org/Officiating/permits. Here they will find the information they need to join a class forming near them. We need your help - please encourage your friends and neighbors to get involved!

Lastly, I’ve told you in past years that I especially enjoy the chance to get around the state prior to each season and meet so many of you at our preseason meetings and events. That will not happen much this year but I do look forward to seeing you on the field. Have a great season and again thanks for all your extra efforts this year. Stay healthy!

Sincerely,

Jerry Fick

2021 Softball Rules Modifications and Rules Recommendations and General Requirements and General Recommendations

With the support from the NFHS Softball Rules Committee, the Ohio Department of Health, the Ohio Governor’s Office and the Ohio High School Athletic Association, the rules modifications and rules recommendations and general requirements and general recommendations outlined in this document are meant to decrease potential exposure to respiratory droplets by encouraging social distancing, limiting participation in administrative tasks to essential personnel and allowing for appropriate protective equipment. Note: This is not an exhaustive list and there might be additional steps in each school, city and state to help prevent the spread of the COVID-19 coronavirus. Even when taking all precautions, there will still be risk of transmitting illnesses. Everyone should stay vigilant about the health of members of their teams. Lastly, the situation with COVID-19 is rapidly changing. These considerations may quickly become outdated. Please keep up with the latest from the CDC and other health officials in your area.
