

Chain of Communication

For Parents/Fans

The OHSAA strives to maintain clear channels of communication when there are questions or concerns from parents or fans, and we want to address these quickly and accurately. To that end, please follow this chain of communication when seeking information from the OHSAA Executive Director's Office as it relates to eligibility and/or transfers or for sport-specific questions. More often than not, parents or fans should start with your local school administrator (athletic administrator or principal) since we will not address specific questions regarding your child via the telephone. We hope by following this procedure that you will receive a prompt response to your question or concern.
