

## Chain of Communication

### For Administrators & Coaches

The OHSAA strives to maintain clear channels of communication when there are questions or concerns from school administrators and coaches, and we want to address these quickly and accurately. To that end, please follow this chain of communication when seeking information from the OHSAA Executive Director's Office as it relates to eligibility and/or transfers, for sport-specific questions or for other areas. The easiest and quickest way for administrators and coaches to communicate is via email. However, telephone calls are also welcome. Please note that we generally do not respond to telephone calls from parents, especially when the question is related to student eligibility or transfers. We hope by following this procedure that you will receive a prompt response to your question or concern.
