THE FOLLOWING SEEDING METHOD SHALL PREVAIL FOR ALL OHSAA SPONSORED BASEBALL TOURNAMENTS. **All teams assigned to the first round of the tournament shall be seeded.** For purposes of seeding, the last matches to be counted will be those played on the date established by the District Athletic Board.

BASEBALL TOURNAMENT SEEDING PROCEDURE

1. Tournament managers will post the records of all teams in their tournament. It is the responsibility of each school to have its records compiled as shown below and given to the tournament manager the day of the drawing. The records will include the number of wins and losses in the divisions of the teams played. For example:

All games played shall be recorded.

2. Voting on seeded teams: All head coaches shall vote **via ballot which shall be made public**, selecting their choice for the #1 seeded team. The team with greatest number of votes shall be seeded #1, second highest #2, etc, until all teams are seeded. In case of a tie only the tied teams will be re-voted upon. If a tie should occur the second time, a flip of the coin shall determine the seeded team.

NOTE: If electronic balloting is utilized in a District, the results shall be sent to the manager and made public by the manager at the drawing meeting.

3. Placement of Teams on Brackets: Each District Athletic Board shall determine placement of teams on brackets. Regulations for specific District Athletic Board tournaments are available on their websites at:

Sample brackets will be distributed to each manager. Samples of brackets are included in the manager's materials and can be found on the OHSAA web site.

All brackets shall designate date and time of contest with the home team being listed on the top of the bracket.

If property is damaged at a tournament site by competing school teams, student body or spectators, the school from which the students and/or spectators come shall be liable and pay the cost of repair or replacement. The OHSAA will deduct from the school's share the cost of any damages caused by competing schools. Other damages to facilities not attributed to a competing school could be a legitimate tournament expense and may be deducted from tournament receipts. If damage is extensive, the District Board or Board of Directors will become involved. Student crowd control at state sponsored tournaments is the responsibility of the administrative heads of the competing schools.

XIX. SPONSORSHIP AND RIGHTS

The Ohio High School Athletic Association is the sponsoring organization for the Baseball Tournaments. The OHSAA reserves all rights in regard to the management of these tournaments and the sale of any items at the tournament sites or any audio-visual reproductions of the events. XXIII. DRONES – UMNANNED AREAL VEHICLES

The use of drones is prohibited for any purpose by any persons at OHSAA tournament contests. Tournament management shall remove anyone attempting to use a drone and/or confiscate the drone until the event has been completed.

Note: An exception to this policy may be made in specific cases for OHSAA broadcast partners, provided the management of the tournament facility permits the presence of drones for broadcast purposes under the control of the OHSAA.

XXIV. CONCUSSION RECOGNITION AND MANAGEMENT

Any athlete who exhibits signs, symptoms or behaviors consistent with a concussion (such as loss of consciousness, headache, dizziness, confusion or balance problems) shall be immediately removed from the contest and shall not return to play. Coaches, umpires and administrators possess the right to remove a player for suspected concussions. All coaches and tournament umpires are required to have completed one of the two approved Concussion Courses or possess a current and valid Pupil Activity Permit. Umpires carry the NFHS Rules Book and the Suggested Guidelines for Management of Concussions is located in the Appendix in the back of the book.

XXV. LIGHTNING AND INCLEMENT WEATHER

This is an extremely important safety policy adopted by the National Federation. Though all officials received these procedures in pre-season communication, it is strongly recommended that tournament site managers review this policy with administrators of competing schools, coaches and officials prior to games. The Lightning and Inclement Weather Policy is relative to ALL OHSAA Sports and is contained within **OHSAA Sports Regulation**.

Recognition:

Coaches, athletic trainers, athletes, administrators and contest officials should be educated regarding the signs indicating thunderstorm development. Since the average distance between successive lightning flashes is approximately two to three miles anytime that lightning can be seen or heard, the risk is already present. Weather can be monitored using the following methods:

Monitor Weather Patterns – Be aware of potential thunderstorms by monitoring local weather forecasts the day before and morning of the competition, and by scanning the sky for signs of potential thunderstorm activity.

National Weather Service – Weather can also be monitored using small, portable weather radios from the NWS. The NWS uses a system of severe storm watches and warnings watch indicates conditions are favorable for severe weather to develop in an area; a warning indicates severe weather has been reported in an area, and everyone should take proper precautions. Any thunderstorm poses a risk of injury or death even if it does not meet the criteria for severe weather. Therefore, anytime thunderstorms are in the forecast (even if it is only a 20 percent chance), event organizers should be at a heightened level of awareness to the potential danger of lightning.

Management:

Evacuation– If lightning is imminent or a thunderstorm is approaching, all personnel, athletes and spectators shall evacuate to available safe structures or shelters. A list of the closest safe structures should be announced and displayed on placards at all athletic venues.

Thirty-minute rule– Competition or practice shall be suspended once lightning has been recognized or thunder is heard. It is required to wait at least 30 minutes after the last flash of lightning is witnessed or thunder is heard prior to resuming practice or competition. Given the average rates of thunderstorm travel, the storm should move 10-12 miles away from the area. This significantly reduces the risk of local lightning flashes.

Any subsequent lightning or thunder after the beginning of the 30-minute count shall reset the clock, and another count shall begin.

*NOTE: At night, under certain atmospheric conditions, lightning flashes may be seen from distant storms. In these cases, it may be safe to continue an event. If no thunder can be heard and the flashes are low on the horizon, the storm may not pose a threat. Independently verified lightning detection information would help eliminate any uncertainty.
