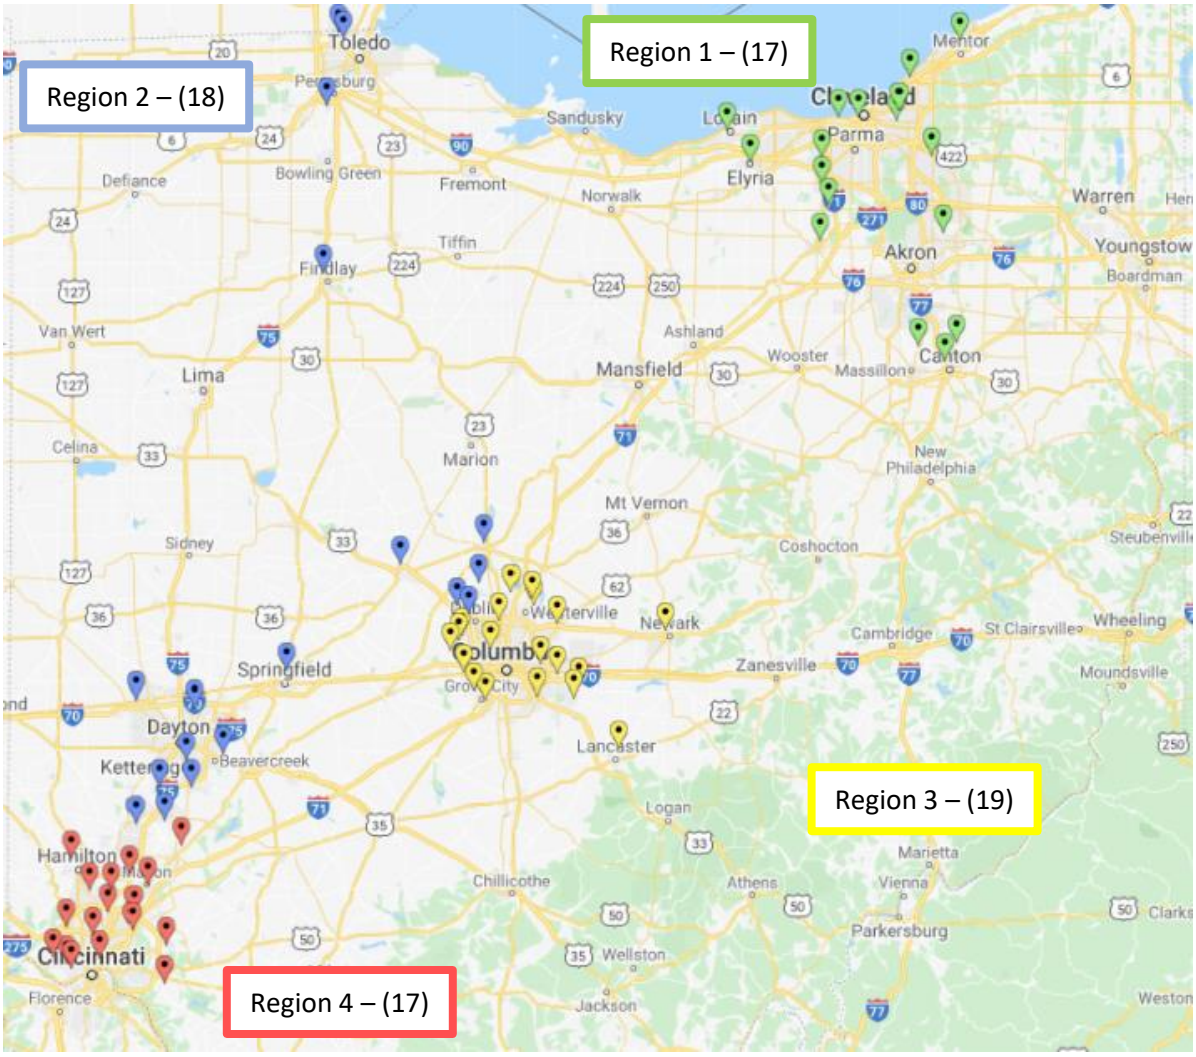
2021 OHSAA Football Regional Alignments

Division I


- Schools with male enrollment of 604 or more
- Four regions: 17 schools in two regions; 18 schools in one region; 19 schools in one region
- Region Process:
  The regions were redrawn based on the number of teams that requested to enter the 2021 OHSAA Football Tournament. Once we have the number of teams, we look at the "pins" representing each school in that division all over the state (see map below). We don't keep counties together because the "clusters" of schools makes that impossible. As you can see from the map, schools can be pretty spread out.
