WE ARE THE OHIO HIGH SCHOOL ATHLETIC ASSOCIATION

Now in its 114th year, the Ohio High School Athletic Association is a non-profit service organization that regulates and administers interscholastic competition in a fair, consistent and impartial manner. This means the OHSAA ensures that everyone has a chance to compete on an even playing field.

The OHSAA currently has 815 high schools and 760 7th-8th grade schools, which represents over 350,000 students competing in 26 sanctioned sports (13 for boys and 13 for girls). Schools voluntarily become members of the OHSAA.

Each member school has an equal voice in determining the bylaws and constitution of the OHSAA. Regardless of the size of the school or whether the school is public or private, each member school has one vote. Schools are voluntarily members of the OHSAA.

The OHSAA Board of Directors is charged with employing the administrative and support staff; determining contest rules and regulations; organizing state high school tournaments, and hearing appeals of rulings that are made by the commissioner or his staff. Board representatives are members of the teaching profession, are employed full-time by a member school and are elected to their positions.

The OHSAA Executive Director and staff are charged with enforcing the regulations and promoting the purpose of interscholastic athletics. Among their duties are to answer questions from the member schools and make interpretations on the regulations; prepare for and conduct high school tournaments; serve as educators by conducting meetings, clinics and workshops for officials, coaches, administrators and student-athletes, and manage the fiscal affairs of the association. There currently are 20 full-time employees at the OHSAA, with the office located in Columbus.

The OHSAA is organized into six geographic regions called athletic districts. Each nine-member District Athletic Board assists the OHSAA in conducting sectional and district tournaments.

The OHSAA receives no tax money. The primary source of financial support comes from tournament gate receipts. Schools are assessed no fees to maintain membership within the OHSAA or to enter OHSAA tournaments. They are provided rule books, educational materials and other printed items along with catastrophe insurance coverage for all participants at a cost of approximately \$700,000 that is paid by the Association.

The OHSAA is a member of the National Federation of State High School Associations, which consists of the 50 individual state high school athletic and/or activities associations and the association of the District of Columbia and nine Canadian organizations. Learn more about this collaboration at NFHS.org.

THE OHSAA IS COMMITTED TO:

Establishing and regulating regular-season and tournament standards in order for competition to be fair and equitable.

Promoting that interscholastic athletics participation complements a student's educational experience and that academic standards must be met to have the privilege of participating in school sports.

Providing rulings that are swift, fair, consistent and impartial based on the bylaws and regulations that OHSAA member schools have voted into place.

Administering exceptional interscholastic athletics tournaments.

Operating with openness and demonstrating fiscal accountability.

Honoring the ultimate purpose of school sports, which is to promote lifelong values, good citizenship, academic success, ethics and fair play in safe and sporting environments.
